

- 1: Go to the corner of the field, there you will see the tee box
- 2: Go straight to the smaller part of the field
- 3: It is hidden behind the mound to the right of the 2nd basket
- 4: Over the small bridge and at bend as the path turns right
- 5: Back track a bit there will be a path halfway between the tee and the basket you will walk over a small foot bridge and then take a right as the path splits walk until you see a field to your right and a much wider path to your left with a fallen down tree in the middle take a left and it should be your next right after the fallen tree (tee box is on the right side of the path)
- 6: Go to the left, away from the field, and it will be on the left past the first row of trees
- 7: There is a small path to the right of the 6th basket take that then when you get to the next clearing (20 feet) take a left and the tee box is hidden around the bend
- 8: This is a "fun" long walk back tracking to that path from 4 to 5 where it splits, take a right path as you are walking back to hole 4 (the path you have not taken yet) you will walk over a bigger bridge within 30 years of that split. Once you cross the bridge the tee box is to the right and hole is to the left in the tees (on the right side when you are on the tee box).
- 9: There is a very small path past the 8th basket to the left and once you get in the clearing you will see the tee on the other side of the path and the hole goes to the right.
