

# Bad Rock Creek Disc Golf Course

Welcome to Bad Rock Creek Disc Golf Course. Following the Tee It Forward philosophy, this course was designed for players of all skill levels—beginner, advanced, and pro. Through the placement of alternate tee pads and additional baskets, Bad Rock Creek Disc Golf Course combines three courses—Red, Blue and Gold—into one 18-hole layout.

## "Creek of the Bad Rock"

This course gets its name from the Lewis and Clark Expedition that traversed the area more than 200 years ago. Rush Creek flows along the east side of Stocksdale Park and Walnut Woods Conservation Area before flowing south into the Missouri River. Clark's journal of June 24, 1804 noted "...a bad part of the river, on the S.S. the rocks projected into the river some distance" just above its confluence with the creek. Lewis and Clark's comrade, Sergeant Charles Floyd, referred to the creek as "Creek of the Bad Rock." Two months later, Floyd became the only member of the expedition to die along the route.

## COURSE GUIDE

**RED Course:** Use short tee pads marked with red paint (for holes in which they occur) to the blue baskets. Geared for beginners and recreational players.

**BLUE Course:** Use long tee pads (unpainted) to the blue baskets. Designed for experienced and advanced/pro players.

**GOLD Course:** Use long tee pads to the 9 gold baskets (for holes in which they occur). Championship layout designed for advanced and pro play with greater length, obstacles, and hazards.

## SHARE THE PARK

Please be aware that Bad Rock Creek DGC lies within a multi-use park, and the course layout intersects with trails in many locations. Please give all bike riders and pedestrians the right-of-way. Refer to the tee signs for trail crossings throughout the course.
